NEWSLETTER
OCTOBER 2026

Welcome to LAAT

Welcome to the latest edition of our newsletter! Whether you are a new student, returning learner or part of our wider community, we are delighted to have you with us.

Who We Are

LAAT is a higher education provider with campuses across London, including Tower Hill, Brentford and Croydon. In partnership with Plymouth Marjon University (PMU), we offer recognised university qualifications in a supportive and student-focused learning environment.

What We Believe

We believe education should be accessible, practical and inclusive. Our courses combine academic learning with real-world skills, helping students build the knowledge and confidence to achieve their ambitions.

A Supportive Community

Our diverse student community brings together people from different backgrounds and experiences. Our team is committed to ensuring every student feels welcomed, supported and heard throughout their academic journey. Student feedback also plays an important role in shaping and improving the LAAT experience.

Our Commitment to Quality

As a registered higher education provider, LAAT works in line with Office for Students standards and collaborates with its university partner to maintain a high-quality learning experience.

Stay Connected

Through this newsletter, we will share campus updates, events, opportunities and student achievements. For stories, ideas or queries, contact our Student Experience team at **studentexperience@laat.ac.uk**.

Thank you for being part of the LAAT community. We look forward to growing and achieving together!

Message From The Director

Dear Students,

This newsletter is an opportunity to remind you of the importance of making the most of your academic journey and the opportunities available to you.

Education is more than attending classes and completing assignments. It is about developing knowledge, confidence, communication skills, critical thinking, creativity, and the professional attitude required for future success. Every lesson, assessment, group activity, and academic discussion provides an opportunity to learn something new and develop skills that will benefit you in your personal and professional life.

We strongly encourage every student to take responsibility for their learning. Regular attendance, active participation, effective time management, and consistent effort are essential for achieving good academic outcomes. Please ensure that you understand your course requirements, keep track of important deadlines, and submit your assignments on time. Planning your work in advance can help you manage your responsibilities effectively and reduce unnecessary pressure.

Our tutors and academic support teams are available to assist you throughout your studies. If you are experiencing difficulties with your coursework, assignments, attendance, or

understanding a particular topic, please speak with your tutor or the relevant member of staff. Seeking support early can make a significant difference to your academic progress.

We also encourage you to develop your digital and employability skills. Today's professional environment requires individuals who can communicate clearly, work effectively with others, solve problems, adapt to change, and use technology responsibly. Take advantage of opportunities to strengthen these skills alongside your academic knowledge.

Academic integrity is equally important. Always complete your work honestly, acknowledge information obtained from other sources, and follow the Academy's academic policies and procedures. Developing good academic and professional habits now will support your future career and further education.

Finally, remember that success is built through determination, consistency, and a positive attitude. Challenges are a natural part of learning, but they can also provide valuable opportunities for personal growth. Believe in your abilities, remain focused on your goals, and continue working towards your ambitions.

I look forward to seeing your progress and achievements throughout the academic year. Together, let us create a positive, respectful, and successful learning environment.

Best wishes,

Mehnoor Ryhan

Director of Academics

London Academy of Applied Technology

Message From The Student Governor

My University – LAAT

My name is **Casandra Calin**, and I am a student at LAAT. I am happy to be part of this university because it gives me the opportunity to learn new things, meet different people, and prepare for my future.

For me, LAAT is more than just a place where students come to study. It is a place where we gain knowledge, learn new skills, make friends, and discover more about ourselves. Being a university student is an important part of my life because it helps me grow and become a better person.

One thing I appreciate about LAAT is the opportunity to continue my education and work towards my dreams. The lecturers help us understand our subjects and guide us in our studies.

Although studying can sometimes be difficult because of assignments, examinations, and other challenges, I believe that hard work and determination can help us succeed.

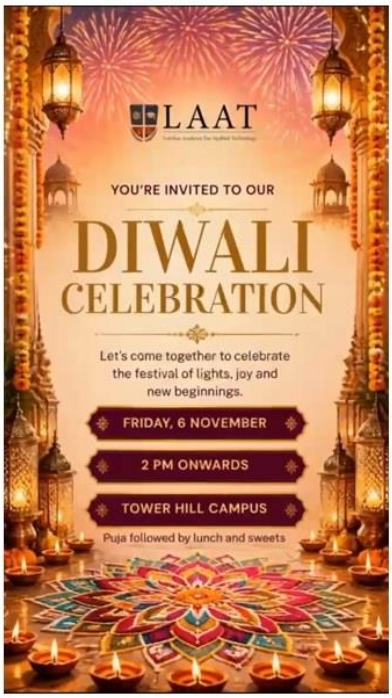

I also enjoy meeting different people at university. We come from different backgrounds and have different experiences, but we have the opportunity to learn from one another. We can share ideas, help each other, and build good friendships. This makes university life more interesting and teaches us the importance of respect and teamwork.

As a student at LAAT, I understand that I have a responsibility to take my education seriously. I need to attend classes, complete my assignments, respect my lecturers, and follow the university rules. I also want to make my family proud and achieve the goals I have set for myself.

Sometimes life as a student can be challenging, but I know that giving up is not the answer. I want to keep learning, improving myself, and working hard for a better future. I believe that the knowledge and experience I gain at LAAT will help me in my life and future career.

In conclusion, I am proud to be a student at LAAT. I am grateful for the opportunity to study here, and I hope to make the most of my time at the university. My goal is to finish my studies successfully, achieve my dreams, and make my family and university proud.

Events At LAAT

DIWALI CELEBRATION

Coming together to celebrate the festival of lights, with a day of tradition, togetherness and community.

HALLOWEEN AT LAAT

A little creativity, a lot of team spirit and Halloween fun on the 7th floor.

Celebrating connections, community and memorable moments.

1. Diwali Celebration

Diwali at LAAT was a wonderful opportunity for students and staff to come together and celebrate the festival of lights. The celebration brought a touch of Indian tradition and festive spirit to the Tower Hill campus.

The event featured a traditional Puja, followed by lunch and sweets, giving everyone an opportunity to share in the celebrations and enjoy the warmth of the occasion. Students and colleagues embraced the festive atmosphere, with traditional attire adding to the spirit of the day.

More than just a celebration, the occasion reflected the cultural diversity of the LAAT community and the importance of recognising and celebrating the traditions that bring us together.

2. Halloween at LAAT

The 7th floor at LAAT took on a spooky twist as students and staff came together for a fun-filled Halloween celebration on 30 October.

The event featured pumpkin carving and a lively trick-or-treat activity, giving everyone an opportunity to get creative, participate and enjoy a break from their usual academic and work routines.

With Halloween costumes, themed makeup and plenty of festive enthusiasm, the celebration brought a playful energy to the campus. Participants were also encouraged to bring their own pumpkin-carving kits and get involved in the activities.

It was a memorable afternoon filled with creativity, laughter and team spirit, reminding us that campus life is about more than academics.

Our Values

Awards & Achievements

Three of our students travelled across the seas to attend their convocation ceremony at **Plymouth Marjon University**, marking a memorable milestone in their academic journeys.

Their visit to the UK was made even more special by a wonderful time in London, where they received a warm welcome from the LAAT team. It was an opportunity to reconnect, celebrate their achievements and reflect on the journey that brought them to this important occasion.

As part of the celebrations, the students were also felicitated at the **London Academy for Applied Technology (LAAT)** by our Dean, **Mr Manoj**, in recognition of their academic achievements.

At LAAT, we take immense pride in seeing our students progress, achieve their ambitions and reach new milestones. Their journey is a reminder of the opportunities that international education and institutional partnerships can create.

Congratulations to our students! We wish them continued success as they take the next steps in their journeys.
